1 Safety Instructions:

ATTENTION! Only skilled electricians may assemble and disassemble the housing of the product.

ATTENTION! Risk of injury by stumbling! Attend to safe cable installation!

ATTENTION! Risk of short-circuit! Never bridge contacts! Do not put things into slots or ports!

2 Description and Function:

This product is made for connecting a device with serial 9 pin D-SUB interface to a PC system with USB A interface.

3 Connecting and Operating:

System requirements: Win 2000, XP, VISTA, or 7 USB 1.1 Interface

1. Attend to the driver software of your serial device (e.g. modem). This driver software should be included in delivery of your serial device.
2. Insert the driver CD-ROM of the serial converter in your PC. Navigate to the installation file required for your OS and execute it. The converter uses a chipset PL 2303 from the supplier prolific. Please check www.prolific.com.tw for latest updates.
3. Connect the USB plug to your PC. Follow the installation instructions of windows.
4. The Converter will automatically find the next free serial interface (COM-Port) of your system and use it. In the "windows control panel" "device manager" the converter will be displayed in the rubric "Ports" with the name „Prolific USB-to-Serial Comm Port (COM)“. The driver software properties allow you to set up details e.g. data transfer rate.

4 Warranty and Responsibility:

- As the manufacturer has no influence on installation, warranty only applies to the product itself.
- The manufacturer is not liable for damages to persons or property caused by improper installation, operation or maintenance.
- Do not alter or modify the product or its accessories.
- Any use other than described in this user's manual is not permitted and causes loss of warranty, loss of guarantee, and non-liability.
- We reserve our right for misprints and changes of the device, packing, or user's manual.

5 Troubleshooting:

no function	Check all connections to be connected like described in chapter 3.
	Ask a certified specialist.
driver problems	Update the driver like described in chapter 3.

6 Disposal Instructions:

According to the European WEEE directive, electrical and electronic equipment must not be disposed with consumers waste. Its components must be recycled or disposed apart from each other. Otherwise contaminative and hazardous substances can pollute our environment.

As a consumer, you are committed by law to dispose electrical and electronic devices to the producer, the dealer, or public collecting points at the end of the devices lifetime for free. Particulars are regulated in national right. The symbol on the product, in the user's manual, or at the packaging alludes to these terms. With this kind of waste separation, application, and waste disposal of used devices you achieve an important share to environmental protection.

WEEE N°: 82898622

7 EC Declaration:

This device corresponds to EU directive 2004/108/EC: With the CE sign Goobay®, a registered trademark of the Wentronic GmbH ensures, that the product is conformed to the basic standards and directives.

8 Specifications:
